Smart Starts Juniors

Ages: 3-5 yrs

Monthly computer classes will emphasize the proper use of the mouse through eye-hand coordination and visual discrimination. Additionally, the children will learn the basic parts of the computer-mouse, monitor, keyboard, etc. through song and demonstration. Children will work on their own laptop and utilize the latest educational software to reinforce preschool concepts like: numbers, shapes, letters, pre-reading, math and more!

Smart Starts Computer Series

For monthly computer series classes for ages 5 to 16, please see details in Specialty Class section.

Toddler Music

Ages: 6-24mths

We will focus on developmental skills in music by singing, moving, and playing instruments that will improve spatial awareness and eye-hand coordination. Musical techniques and ideas will also be given to the parents to allow for music interaction at home. This class is designed for child and parent.
